

## **ASSIGNMENT #1 (due date: May 19th 2022)**

DESCRIBE A VIDEO GAME YOU LIKE AND WRITE A SET OF CLEAR INSTRUCTIONS ON HOW TO INSTALL IT AND PLAY IT.

I WILL PROVIDE AN EXAMPLE WITH MY FAVOURITE VIDEO GAME: TETRIS!

*Tetris is a puzzle video game created by a Russian software engineer in 1984. The player receives pieces (called tetrominoes) in different shapes and colours and the objective of the game is to complete lines by moving them. The completed lines disappear and give the player points. The game ends when the playing field is filled with pieces. It's a fantastic game! I love it because it is very easy to understand and I can relax when I'm playing it. It's very addictive and mentally stimulating!*

*Instructions to play:*

1. *Get a games console or download Tetris in your computer.*
1. *Push start.*
2. *Select 1 or 2 players.*
3. *Select the level you want to start at. (Start at the lowest level so you can practise!)*
4. *Select the background music you want to play with.*
5. *Look at the piece that you receive and rotate it and/or move it left and right so you can form lines.*
6. *Pay attention to the piece you receive next (it appears on the right-hand side of the screen!)*
7. *Complete lines and continue onto the next level.*
8. *Don't panic!!! Think carefully where to put the pieces.*

*Les dejo a modo de ejemplo un TP hecho por un alumno en el año 2020.*

[Ejemplo TP 1](#)

*Luego hagan uno mostrando su videojuego! No debe ser muy largo, algo sencillo! Thanks!*
